Release Type	Initial Release
Release Date	18 th May 2021
Revision	r2251
Open JDK Version	13.0.2.8
Mariadb Version	10.4.12
InfluxDB Version	1.8.3
Locale	UK & Ireland Only

VigorACS 3 is the latest version of DrayTek's Central Management System (CMS). It supports all current DrayTek routers and firewalls, providing System Integrators and network administrators with a comprehensive real-time monitoring, configuration, and management platform. New with VigorACS 3 is Software Defined WAN or Software Defined Networking, to make complex routing schemes simple and intuitive.

To learn more about the features and capabilities of VigorACS, see this page:
