-

Firmware Version	2.6.6 (Formal Release)
Release Type	Regular – Upgrade recommended when convenient
Build Date	28 th October 2020
Release Date	12 th November 2020
Build Revision	1952
Applicable Models	VigorSwitch G1085
Locale	UK & Ireland Only

New Features

(none)

Improvements

1. The Switch's self-signed certificate will change upon upgrade for compatibility with new browser certificate requirements.

Starting from September 2020, many client OS & browsers will limit publicly trusted TLS server certificate lifetime to 398 days or less, and connections will be rejected if certificates exceed this. This firmware patch will automatically re-sign all self-signed certificate lifetimes to 395 days (was 2 years or longer in older versions)

2. Support for statistics/counters information for each port on Status page
3. Support for editing the port number for HTTP management on [System Maintenance] > [Access Manager]

Firmware Version	2.6.4 (Formal Release)
Release Type	Regular – Upgrade recommended when convenient
Build Date	16 th July 2020
Release Date	13 th August 2020
